Maria spoke French but would only speak Spanish if she didn't want you to know what she was saying. If she was hiding something, or talking about something personal, she would say it in Spanish so the children wouldn't understand.

Maria would be sitting by the fireplace with a big apron on with a pocket full of pecans while dipping tobacco but she would never dip in front of anyone. Unfortunately, all of the kids would have to line up to kiss her when they arrived, dreading that her mouth would smell of dipping tobacco. They would recall seeing the dip juice run down the sides of her mouth. Maria wore a long dress and would wipe her mouth on it. She would pretend to wipe dust from her dress but it was leftover tobacco.

Los Llanos de Telde

Known today as San Gregorio
Cristobal and his family lived in
Los Llanos Jaraquemada.
According to the history of
Telde, the poorest of the city
lived, however, in what was
called "Los Llanos de
Jaraquemada and Berebería"
in the district of San Gregorio.
The latter site was born in the
shadow of the first, only to
merge with them.

- Based on correspondence between the War Dept in Washington DC and Francis Falcon, his name in the Confederate roster was listed as 'Francisco Falconi'. This misspelling most probably due to serving in the European Regiment, Italian Guard Battalion, and those who submitted his name in the Confederate roster. <h2>Colonial Spanish Families of Louisiana</h2>	
Home	Welcome to Colonial Spanish Families of Louisiana.
Islenos Families -Passenger Lists	Introduction The first place to visit when researching Louisiana Spanish families genealogy/ancestry. This forum allows you to view personal research of Louisiana Spanish family trees, especially the Falcon family, and submit information about individuals or families. Includes both Canary Islander families (Islenos) and Malaga families (Malaguenos). The Falcon family tree v4.0 has been updated as of 10-1-2009.
Malaguenos Families -Census Lists	*New* in 2009 New families have been added as well as updated information on all trees. Keep in mind due to privacy issues, any individuals considered living will be marked as so.
Other Spanish Families	1804-1810 Lafourche Map - I have run across an old map which was published in the Louisiana Genealogical Register, December 1988, which shows families living around the Donaldsonville area right after the Louisiana Purchase. This map is invaluable to those researching Islenos history. It shows the land plots given to both the Islenos and the Acadians in Louisiana. Feel free to share with others.
Yahoo Groups	History Before I began this, 4 years ago I decided to work on my own family tree. I spent a good part of my summer researching everything I could. As I accumulated more and more information, I needed a place to archive the information. Since then, I've amassed a great deal of information about my family and other Canary Islander families in Louisiana. I started by releasing my entire Falcon family tree online and today, I've decided to release all my information on many Louisiana Spanish families I've researched. I hope this site helps those who are working hard on their tree as I have done on mine.
Contact Information	 The information presented on this site is by no means guaranteed. The accuracy is up to the researcher to verify its contents. I work on over 40 family names and have over 10000 names in my database which leaves plenty of room for error. By all means, I welcome those who have
