Variation by A.L. Merzhon 8°30' East
by Robert Boyd 7°50' East

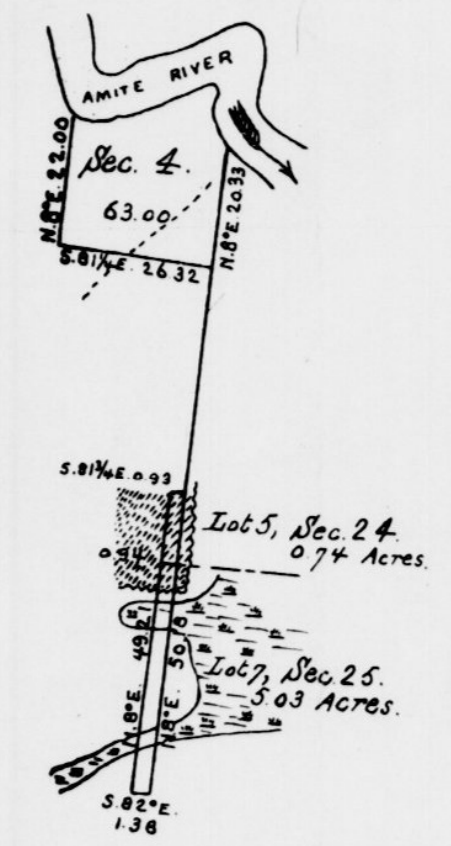

The entire Township was originally surveyed, in 1832, by John Gilmore, Deputy Surveyor, but no evidence of the approval of said Survey is on file.

The claim of James Smith, Harbrough, Sec 17 in T. 8 S. R. 2 E, and Sec 47 in T. 8 S. R. 3 E, was resurveyed by A.L. Merzhon, D.S., under Instructions of 13th May 1856.

The whole of the Township has been resurveyed as above represented, from the 24th October to the 26th Dec (inclusive) 1871, by Robert Boyd, D.S., under contract No 7, bearing dated 24th August 1871. — This entire Township has been colored yellow, merely to represent the conflicts which will exist in the event the confirmations of the Houma Grants are recognized as extending to the Amite River (which remain undecided), and not in recognition of the validity of the said Grants.

Total Area of Township 11428.42 Acres.

Variation: } by A. S. Meeshon 8°30' East.
 } by Robert Boyd 7°5' East.

The entire Township was originally surveyed in 1832, by John Gilmore Deputy Surveyor, but no evidence of the approval of said survey is on file.
 The claim of James Smith Yarbrough, Sec. 17 in T. 8 S. R. 3 E. and Sec. 47 in T. 8 S. R. 3 E. was resurveyed by A. S. Meeshon, D. S. under Instructions of 13th May 1856.
 The whole of the Township has been resurveyed as above represented, from the 28th October to the 26th December (incl) 1871, by Robert Boyd, D. S. under Contract N^o 7, bearing date of 24 August 1871. This entire Township has been colored yellow, merely to represent the conflicts which will exist in the event the confirmation of the "Houma Grant" is recognized as extending to the Atchafalaya River (which remains undecided), and not in recognition of the validity of the said Grants.

Surveyor General's Office
 New Orleans, La. February 29th 1872.

The above Township Map has been examined and compared with the approved field notes thereof now on file in this Office, found correct, and is hereby approved.
